KENTUCKY LEGISLATURE.

The Revenue Pushed Aside Everything in the House on Monday.

Frankfort, Feb. 27.-The Kentucky cenate Monday afternoon adopted a bill creating the office of the state fire marshal. The marshal is to be appointed by the state commissioner of insurance and is to receive the annual salary of \$2,400 to be paid out of a fund created by a tax of one-third of one per cent. on gross premiums collected by fire companies in the Kentucky field. The senate committee on municipalities had a lively meeting in hearing discussion of the house bills seeking to repeal certain legislative acts regulring the officials of the city of Middlesboro to take certain steps to pay interest on the city's bonded in debtedness. After a full hearing, the committee, by a vote of 5 to 3, decided to report the bills adversely, although they have passed the house.

The revenue bill pushed everything in the house aside again Monday and held the boards in the committee of the whole both at the morning and afternoon sessions. Several important sections were passed over, but a number were agreed to and adopted by the committee. The section in creasing the state license for saloons from \$150 to \$225 was adopted, and the section requiring all taxes to be paid at the sheriff's office was stricken out. Representative McLean, of Cov ington, who is taking a prominent par in discussing all disputed sections of the bill, proposed an amendment to empower the city authorities to assess all railroad property inside the city limits, except actual trackage.
